

# STEDAIR®

## MOISTURE BARRIERS

### Committed to Innovation.

At Stedfast, our research and development team is committed to developing innovative barrier textiles that go *above and beyond* the needs of our customers.

**Stedair® 4000** is no exception. **Stedair® 4000** exceeds the NFPA 1971 (2000 edition) standard, providing exceptional protection in an extremely breathable, lightweight product. **Stedair® 4000** provides outstanding TPP *and* THL performance, a combination the industry has yet to see.

Stedair® Moisture Barriers are now being taken to new heights, going above and beyond current protection standards. Stedfast's *chemical and biological protective moisture barriers...* just another example of our commitment to innovation.

*Above and Beyond. Spec Stedair.*

*We've been around for 75 years  
and we're here to stay.*

DuPont™  
**NOMEX®**
